

BURKE'S BAD BREAK

The Detective Creates a Stir at Cote's

CHARGES THAT HE KILLED HIMSELF

James Gaines on Trial for the Murder of Arthur Gardner—Saloon-keeper Celia Not a Citizen—"Stork" Lee and Joseph Hill Accused of Highway Robbery—Other Police News.

About 9:30 o'clock Saturday night, the neighborhood of Kennedy and Coles avenues, was aroused by a succession of pistol shots on the street, a series of lusty yells and men shouting. Officers Wycoff and Hogan, who were some distance away hurried to the scene and found Detective Patrick Burke and a friend of his named Gribbon on the corner. The officers were told by the negroes that the two men on the corner had been shooting. Gribbon was arrested and taken to the station with several negroes. There they stated that Patrick Burke, the detective, had done all the shooting, but had not injured anyone. Gribbon was released, and an officer was sent after Burke, but he could not be found. He was not at headquarters to-day, and Chief Desmond there to find him. The police and detectives have endeavored to keep the affair quiet, but the citizens of the neighborhood have entered a complaint and made it public. Capt. Frickie of the Third District is in possession of all the facts, but refuses to give them to the press. He says that Burke was shot by some that were under the influence of liquor, but his friends deny it. Burke was for years a detective, but left the force two years ago and opened a grocery store. He failed and was driven out of business, and is now a saloon-keeper. He is considered one of the best detectives in this part of the city.

On Trial for Murder.
James Gaines, the negro who killed Arthur Gardner, another negro, on Aug. 25, with a hatchet, is on trial in the Criminal Court to-day on a charge of murder. He is in love with a girl named Ada Borer who lives in a tenement house on Second and Butler streets known as "Battle Row." On the evening of Aug. 25, last year, he called on her and found her alone. He was in love with her and wanted to marry her. She refused to do so, and he became angry. He took a hatchet and went to her room and killed her. He was arrested and taken to the station. He is now on trial for the murder. He is a handsome negro and is well liked by his friends. He is now in the custody of the police.

Established His Incompetency.
James Cella, the saloon-keeper, made a declaration in the Criminal Court this morning which showed that he was incompetent to serve as a juror in the Gaines murder case. He had been summoned as a juror in the Gaines murder case and asked to be excused from service. Mr. Bishop asked the usual question, if the juror was competent to serve. Cella answered, "I am not competent to serve." "What country are you from?" asked Mr. Bishop, surprised that a juror who spoke English with this little slip of the tongue should be called upon to serve as a juror. "I am from my native country," replied Mr. Cella. "Well, how long have you been in this country?" "Twenty-five years," replied Mr. Cella. "And you have not taken out your papers yet?" "No," replied Mr. Cella. "You are excused," remarked the Judge. Cella has been a saloon-keeper in this city fifteen years, and is now running two saloons.

Charged With Highway Robbery.
Fred Renna swore out a warrant this morning charging Joseph Hill and Henry Lee, alias "Stork" Lee, with highway robbery. Renna was with two men on Twenty-first and Fair streets last Saturday night and was robbed of his money. He was taken to the station and a warrant was sworn out for the robbery. The two men were taken to the station and are now in the custody of the police.

Friend Charged.
A warrant charging William Covert with fraud was issued this morning on complaint of James McTaggart, who said Covert defrauded him of \$11. Both men came from the same town in Illinois. Covert arrived a few weeks in advance and when McTaggart came on a visit he was told that Covert was a fraud. He identified both men, and then secured a warrant for the fraud. The two men are now in the custody of the police.

Same Old Story.
Cyrus W. Smith, a native of Bristol, Tenn., passed through the city last Friday, and while taking in the sights he dropped into several saloons. He went to the depot and while there he met a man who gave him money and took him to dinner. Realizing that he was under the influence of liquor, Smith gave the stranger his ticket to Bristol, Tenn., and so to keep for him. The stranger walked away, sold the ticket to a scalper and disappeared.

Cyrus is stopping at a cheap hotel near the depot waiting for the police to capture his false friend and restore to him his money.

Lizzie Mills, a colored woman, charged with having made an assault to kill an Emma sidner, on July 19, 1891, entered a plea of guilty to assault without malice in the Criminal Court this morning, and was sentenced to the Work-house for three months.

He was taken to the station and a doctor called and removed the suffering man to the City Dispensary. It was afterwards ascertained that he was a very destitute man, and he was taken to the station and a doctor called and removed the suffering man to the City Dispensary.

IS BALMAGEDA ALIVE?

Statement of the Two Men Who Claim to Have Seen the Disgraced Staff.

CINCINNATI, O., Oct. 18.—Don Frederico Rivers and Don Carlos Del Rio, late of the military staff of President Balmaceda of Chile, arrived here early yesterday morning and took the 8 a. m. passenger train for New York. Neither could speak a word of English. They had with them Mr. Louis Bloch of California, who acted as interpreter. They said that Balmaceda was not dead, all reports of his death being untrue. They claimed to be refugees, expecting to return to Chile after the bitter feeling engendered by the war had abated.

A very singular circumstance, when taken in connection with the statement about Balmaceda made by the Chilean travelers, is the fact that Mr. Pedro Montt, who has been the chief representative of the opposition to Balmaceda in Chile for the past six months, has been in Cincinnati for two days and has rigidly refused to state what his business here is, and in fact made himself inaccessible to reporters. It is said that he left the city on the same train with Rivers and his companions.

SECOND DISTRICT POLICE COURT.
Judge Paxson Punishes a Large Number of Sabbath Desecrators.

Judge Paxson disposed of a large docket in the Second District Police Court this morning.

Mary Dolan was a visitor of no common order. Her dress was conspicuous for its antiquity and generally disheveled appearance. Others, however, and De Los Angeles, arrested her Saturday night on Tenth and Wash streets for idling and having no fixed place of abode. She stated that she resided at Twelfth and Water streets, but that locality is not to be found in the blue book of the court and she was arrested. Michael McCarthy, a cheviote of the order of hard drinkers, took among the opera house and the city hall. He was arrested by Officers Hopkins and Brown and taken to the station. He was charged with being a vagrant and having no fixed place of abode. He was taken to the station and is now in the custody of the police.

COMPLICATIONS GROWING OUT OF THE PRESIDENTIAL ELECTION.

Prominent Candidates Withdrawn From the Campaign and Cabinet Officers Resign—Pelligrini Massing Federal Troops at the Capital—The President Censured by the Senate.

BRENOA ATRES, Oct. 19.—Following close upon Gen. Mitre's withdrawal from the presidential canvass came a manifesto from Gen. Roca also announcing his retirement from public life. He intended to retire to his estate at San Carlos, a few miles from Buenos Aires, and to devote his time to his private life.

Gen. Roca's manifesto has caused a profound sensation. Groups of citizens were to be seen throughout the city yesterday discussing the matter and wondering what it all meant. Shortly after Roca's announcement was made, the Government was nonplussed by the resignation of Ministers Costa and Carralho.

creasing facts about the rapid growth of the St. Louis cotton trade and the increasing importance of this city as a cotton distributing point, with some illustrations of the incidental benefit of this trade to the city. It is a branch of trade susceptible of magnificent development under the fostering care of the Cotton Exchange, and the very substantial achievements of that organization entitle it to a liberal support from all our business interests.

THE FIGHT AGAINST THE SCHOOL RING.

The School Board ring on the last day for filing a bogus "citizens' ticket" finds itself shut out of the ticket-at-large contest by the failure of its own devices; its "pulls" all broken; its men and methods denounced and opposed by all parties. The only chance now of saving a sufficient remnant of its former power to ward off investigations, expulsions, civil suits and criminal prosecutions, is in the school district elections, where it may pull through some of its boodlers under various disguises if the opposition unwarily permit their votes to be divided among too many worthy candidates.

To guard against this danger the voters in each district have only to study closely the list of local candidates, and, guided by such light as the press may be able to throw upon the question, concentrate upon the best and strongest man to beat the boodlers, be he Democrat or Republican, nominee or independent.

The School Board needs men who are fighting honest.

SCHOOL DIRECTOR O'CONNOR'S hobby is a plain unadorned devotion to his own interests.

IF BALMORADO is really alive he has had enough unpleasant reading about himself to be convinced that he ought not to be.

In the coming school election partisans can best demonstrate their loyalty by voting against men who are no credit to the party.

It is doubtless gratifying to "de push" to be assured by the Judge that they have a strong pull in the Court of Criminal Correction.

SPECULATIONS concerning MR. BLAINE'S residuary legatees are pure waste until after the elections next month. It may be that Mr. BLAINE is not even the heir.

THE district nominations for the School Board are fully as important as the nominations for directors-at-large. None but incorruptible men are acceptable.

It cannot be said that the eleven census is not approved by a single citizen. Supt. PORTER thinks the work was admirably done, and does not hesitate repeatedly and publicly to say so.

PARNELL left little property and no will, so that there is not much prospect of a legal contest, but all deficiency in the fighting line on that account will undoubtedly be made up in the squabble over his political estate.

At a recent Republican meeting in Ohio where Mr. MCKINLEY spoke the faithful were served with soup in American tin cups. The ceremony was a beautiful symbol suggesting Mr. MCKINLEY'S possible whereabouts on the 3d of next month.

"GENTLEMEN and Ladies," said Secretary PORTER at the opening of his speech to the Methodist council. The Secretary should snatch a few hours from the arduous labor of devising methods of concealing a deficit and devote them to the study of etiquette.

A CONTINUANCE of the Irish faction fight will be that which has been cynically called worse than a crime—a blunder. Mr. PARNELL'S death removed the last internal obstacle to a reunion. Private intrigues and personal pique are the only motives for protracting the schism.

MR. BLAINE was a bitter opponent of the McKinley bill and denounced it in bitter terms. As he had a hand in framing the McKinley law he is perfectly consistent in defending it now, but it is worth noting that his defense applies only to those provisions which he engraved on the measure against the opposition of REED and MCKINLEY and in spite of their sneers.

The French protectionists have studied McKinleyism too thoroughly to be induced to yield to the reciprocity bait and admit the American hog without a struggle. Unusual efforts are being made to secure a full attendance, as the convention will probably be called upon to pass important resolutions on the silver question, and some action may also be had toward inaugurating a movement for the substitution of a bank currency for Government issues. One of the man's dodges was to watch the houses of the poor, and to deliver the articles visiting in the city and then call at the homes of the rich and deliver the same.
